

Hari Om

Donts for Results from Remedies or Prayachitta:

As per Scriptures and GF, there is absolutely no point in performing Remedies or visiting Temples for cure of our problems or diseases or sufferings when we do not stop or consciously practicing towards not doing - harmful or violent activities and actions such as

- Keeping animals / birds in the name of pets within cages / glass boxes or nests at home for their life time.

- When we insult holy people or good people just because they do not approve of us or our activities.

- When we interfere in life of others creating confusion, insecurity and unhappiness for our own selfish goals

- When we want to grab possessions or properties of others by illegal or immoral means

- When we are harsh to our own kith and kin or family members or others and make them cry for our sadistic or selfish desires.

- When we are miserly or greedy

- When we are dishonest to respect laws, rules and commandments of scriptures.

- When we indulge in activities or actions leading to malicious gossip, maligning others and indifferent to poor and needy.

- When we cheat Govt (King), people or God indirectly or directly.

Pariharams or Remedies are not going to give any help or relief if you continue to do or perform any of the above actions.

So before we take up remedial measures such as going to a temple, performing a Homam, or chanting a mantra let us look within ourselves and make sure that we are not doing anything bad now to increase further to the account of our existing bad karmas.

GF Blessings. Om Tat Sat
